

Steven F. Austin Middle School

This project is a full replacement for the existing school and renovations to the existing Civic Center PBK is the Architect responsible for the project, the planned completion is June of 2017 Balfour Beatty has been selected as the Construction Manager

This is a rendering of the front entrance of the new school

This is a site plan of how the new building will interface with the other buildings on the campus

We have completed an early package that has relocated utilities and completed the major demolition so construction can be performed without negatively impacting the students or staff of the school.
