# **BRYAN HIGH SCHOOL AUTO TECHNOLOGY IS OPEN FOR BUSINESS**

**NATHAN McCANN – instructor**  
Master Certified ASE Technician – 26 years  
3401 East 29<sup>th</sup> Street  
Bryan, Texas 77802  
(979) 209-2570

**The Bryan Vikings Auto Technology will  
Perform Light Duty Automotive Repairs  
Please call for an Appointment.**

**(979) 209-2570**

## **Wheel Alignment**

**2- Wheel Alignment \$ 90.00 plus cost of parts**

**4- Wheel Alignment \$ 120.00 plus cost of parts**

## **Flat tire repair**

Flat tire repair \$5.00-\$7.50

## **Brake job**

**Most Brake jobs are \$ 99.00 per axle set plus cost of some parts**

## **Oil Changes**

**OIL CHANGES \$35.00**

- Up to 5 quarts of 5/30 oil (add \$4.00 for each additional quart)

- New Oil Filter (some models may have an additional charge)
- Lubricate and inspect steering linkage, suspension, door, and hood hinges as needed
- Adjust tire pressure to the manufactures recommendation
- Up to a gallon of windshield washer fluid
- Inspect and fill under hood fluids
- Inspect wiper blades and exterior lights
- Inspect belts, hoses, radiator and air filter
- Inspect and test battery condition
- Test coolant protection
- Test content of brake fluid
- Inspect for fluid leaks
- Inspect exhaust, CV boots, and brake hoses
- Look up the manufactures recommended maintenance schedule
- Record and explain all findings

#### [VIKING TOUCH MAINTENANCE PACKAGE \\$45.00](#)

Oil Change plus the following:

- Rotate and Inspect Tires
- Visual Evaluation of the Brake system

#### [OIL CHANGE OPTIONS:](#)

- 5/20 synthetic blend oil ADD \$7.00
- Valvoline, Quaker State, Pennzoil or other special requests ADD \$10.00
- Full Synthetic Oil ADD \$30.00
- Non Stock Oil Filter ADD \$10.00

## **Fluid Maintenance**

#### [BRAKE FLUID FLUSH \\$90.00](#)

- Open all brake bleeders and replace if needed (bleeders are extra)
- Remove brake fluid from the brake reservoir

- Attach brake flush machine and flush all of the old fluid out of the system
- Add new brake fluid as needed
- Bleed all air out of the brake system
- Road test

#### COOLANT FLUSH W/EXTENDED LIFE ANTI FREEZE \$95.00

- (100,000 mile coolant)
- Pressure test cooling system
- Inspect all hoses, belts, water pump, valves and freeze plugs
- Attach coolant flush machine
- Flush cooling system per manufacturers recommendations
- Refill with new extended life coolant
- Verify coolant is protected to -35 degrees

#### COOLANT FLUSH WITH 'GREEN" ANTI FREEZE \$95.00

- Green anti freeze
- (100,000 mile coolant)
- Pressure test cooling system
- Inspect all hoses, belts, water pump, valves and freeze plugs
- Attach coolant flush machine
- Flush cooling system per manufacturers recommendations
- Refill with new extended life coolant
- Verify coolant is protected to -35 degrees

#### AUTOMATIC TRANSMISSION CHANGE FLUID AND TRANSMISSION FILTER \$190.00

- Test drive monitor performance
- Scan computer for engine and transmission issues (where applicable)
- Check for transmission factory service bulletins (where applicable)

- Check for factory recalls (where applicable)
- Inspect cooler lines, linkage, sensors, axle boots, joints, output seals, side covers, seals, and gaskets
- Flush transmission
- Fill transmission to the full mark
- Remove and clean Transmission pan, inspect for debris
- Remove and replace transmission filter
- Install a new transmission pan gasket (where applicable)
- **\*Note\* some vehicles have a special transmission fluid ADD \$30.00**

#### DRAIN & REFILL \$45.00

Available for some automatic and manual vehicle subject to amount fluid needed.

#### Rear Differential service \$50.00

- Remove and clean Differential pan, inspect for debris and fill to level

#### FUEL INJECTION FLUSH AND CLEANING SERVICE \$100.00

- Clean fuel systems improve gas mileage
- Remove intake inlet assembly, clean throttle plate and air intake passages
- Attach fuel injector cleaning equipment per manufacturers instruction
- Run engine at high idle, chemically cleaning fuel injectors
- Add cleaner to fuel tank. This needs to be added when tank is near full. If tank was not near full, additive is placed on the floor of your vehicle. Please fill tank and install additive.

#### THROTTLE BODY CLEANING FOR STICKING GAS PEDALS \$40.00

- Remove parts to access throttle body
- Clean throttle body and intake manifold
- Reassemble

## **MISCELLANEOUS SERVICES**

#### COMPUTOR SPIN BALANCE OF ALL FOUR TIRES \$55.00

Rotate Tires if needed

BRAKE SYSTEM EVALUATION\* \$25.00

- Test Drive before and after service
- Inspect, remove and inflate tires to manufacturers recommendations
- Inspect parking brake system
- Inspect all brake lines and hoses
- Check brake calipers and cylinders for proper operation
- Remove brake drums and brake pads as necessary
- Measure pads, rotors, and drums compare to manufacturers specifications
- Give a written recommendation to the customer
- A written estimate which includes all parts, labor, taxes and applicable charges are approved by the customer before any brake repair is done.
- **\*The evaluation is free if the recommended brake work is done**
